

The logo features a stylized lowercase 'e' in white with a yellow arrow pointing to the right, followed by 'WIN' in large white capital letters. Below this, the words 'Access Point' are written in white. The entire logo is set against a blue background with a yellow dotted pattern at the bottom right of the 'WIN' text.

e-WIN Access Point

The e-WIN Access Point program provides access to services offered by a full-service WIN Job Center to people in rural and remote communities. Citizens do not have to travel to the nearest WIN Job Center and can save time, gas and money. This service delivery model brings workforce services to more people in areas that are not served by a full-time WIN Job Center. Each **e-WIN Access Point** provides at least one publicly accessible computer with Internet and an **e-WIN Access Point** Ambassador to help newcomers to the Workforce Investment Network (WIN) system. Each Ambassador receives training to assist job seekers and has a personal connection to their nearest WIN Job Center management, staff and key partners.

e-WIN Access Points are strategically located throughout the state in both Faith Based and Community Organizations. Examples of Faith Based Organizations could include but not limited to local places of worship, church administrative offices and/or family life centers, regional offices of various denominations, etc. Community organizations may include but are not limited to libraries, community centers, city halls, schools, county courthouses, chambers of commerce, volunteer fire stations, urban leagues, charitable organizations, community action organizations and rural assistance centers.
